

Walt® Speaker Mic

One-Touch Communication:
Built with Frontline Durability

The speaker mic is tailor-made to fit properly and safely to all users. The speaker mic is a rugged, seamless extension of your Walt Smart Radio.

Built to withstand tough industrial environments, it allows you to communicate even faster without the need to unclip your radio, ensuring you stay focused on the job at hand.

Simple. Safe. Smart.

✓ One-Touch Communication

Dual-action PTT enables front or thumb activation for fast, easy use on the move.

✓ Built for the Frontline

Rugged and glove-friendly, designed for tough industrial environments.

✓ Clear in Loud Environments

Delivers crisp audio up to 105 dB, optimized for high-noise settings.

✓ Instant Connectivity

Plug-and-play via USB-C – no pairing, no setup, just seamless Walt integration.
