# Get Started on your walt

## SOS

Hold for 3 seconds to send emergency alert.

## PUSH-TO-TALK (PTT)

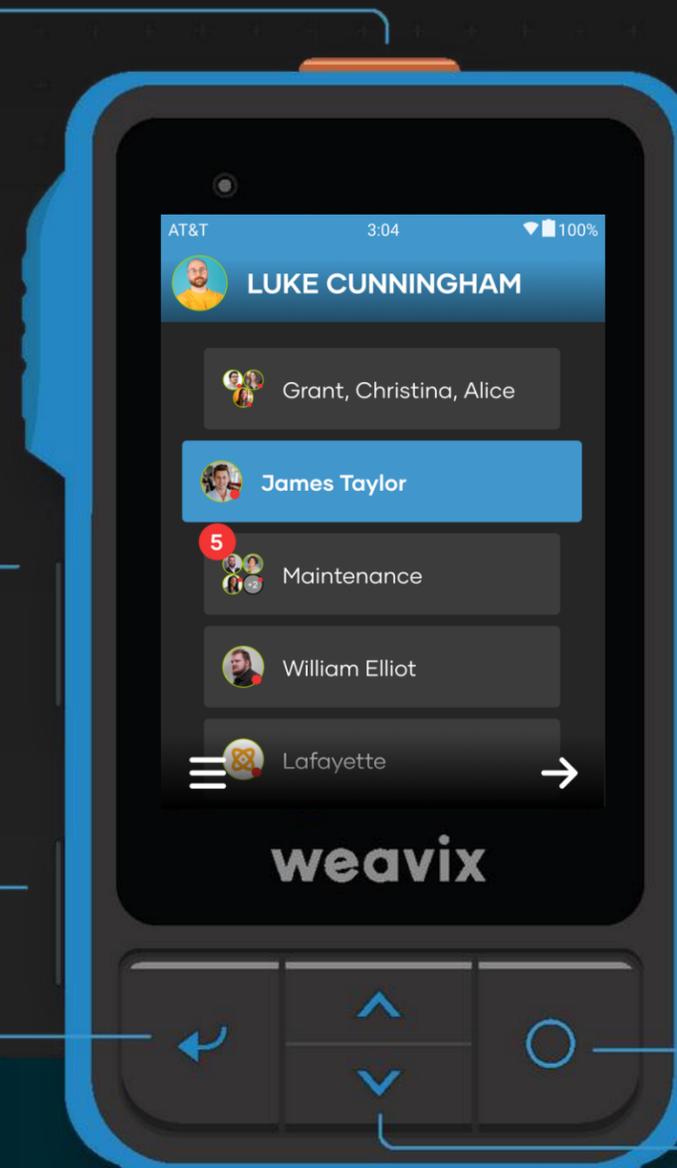

Hold until you hear a chirp before relaying message.

## VOLUME

Choose between **8 volume levels**.

## BACK BUTTON

Press multiple times consecutively to get to menu screen.

## FULL TOUCHSCREEN

2.83-inch LCD screen with Gorilla® Glass Technology.

## ACTIVE CHANNEL

The channel marked in blue signifies where your PTT audio will be sent.

## POWER BUTTON/SELECT

Press once to select OR press & hold for 2 seconds to put device to sleep.

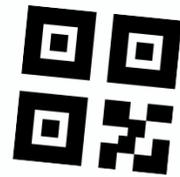

## NAVIGATION

Glove-friendly movement through screens.

## Let's Get Started!

## Create a Channel

You can create new channels on your radio to talk to individuals or groups.

- 1 Tap the back button until you're on the menu screen and click **New Channel**
- 2 Select **Individual** or **Group**
- 3 Select from multiple ways to find users
- 4 Tap the person's name to add to the channel

Once you create the channel, **push the PTT button until you hear a chirp** & send your first message

## Reply Now Banner

The Reply Now banner will appear for **5 seconds** after receiving an incoming message. During this time, any messages you send **will only reply to that specific message** instead of the Active Channel. You can adjust the banner duration in Notification Settings.

## Channel Menu

Pull up from the bottom of the channel or **press the down arrow** to access the channel menu.

## SOS

Hold for **3 seconds** to send emergency alert

## PTT (PTT)

if you hear chirp playing

**FULL TOUCHSCREEN**  
2.83-inch LCD screen with Gorilla® Glass technology

**ACTIVE CHANNEL**  
The channel **marked in blue** signifies where your PTT audio will be sent
