### Closing the Last Mile From the Apron to the Office

## What is weavix™

weavix™, the Internet of Workers platform, is the only communication and productivity platform made for the frontline workforce. We unlock the hidden opportunities and true value of workers by bringing collaboration technology and efficiency data into one place. Giving employees the right tools with the right capabilities means airports can tailor their operations to cater to their passenger's needs, improve safety procedures and drive scalable, long-term success. weavix™ is a single source of truth for connecting and managing all your employees.

✓ **Improve Team Communication**

✓ **Prioritize Employee Safety**

✓ **Boost Enterprise Productivity**

### UNLOCKING THE FULL POTENTIAL OF YOUR FRONTLINE

## More Efficient Processes for Accelerated Routines

weavix™ allows corporations to realize the full potential of their workforce with the latest in digital communication technology and live data insights. From the tarmac to the control tower, weavix™ empowers every aspect of your airport operations to enhance every flight and travel experience.

#### **IMPROVE OVERSIGHT IN THE AIRPORT**

weavix™ provides complete visibility for managers and airport personnel to effectively manage their resources and provide a seamless traveling experience for passengers.

#### **SEND SAFETY INFORMATION**

Keeping passengers and staff safe is the utmost priority for every airport. Instantly send man-down alerts, GPS location and other safety information from any device.

#### **EXPERT-LEVEL TROUBLESHOOTING**

From reporting a maintenance request to helping a passenger get to their flight, your employees can effectively work together to resolve the most complex issues fast.

MORE THAN JUST A RADIO

## Push-to-Three Collaboration

Giving your staff the freedom to communicate how they want  
to unlock productivity & efficient operations.

weavix™ combines push-to-talk with some of today's most popular methods of communication at the push of a button. Push-to-talk, push-to-picture and push-to-video come together to give you the next generation of frontline communication: **Push-to-Three Collaboration**.

**Talk**

Send clear voice messages as you would with your traditional radio

**Picture**

Snap, send & receive images for quick answer & resolution

**Video**

Collaborate face-to-face to easily solve work's most complex issues

THE NEXT GEN  
OF FRONTLINE  
COMMUNICATION

## Capabilities for All that Work Has to Offer

- PLTE - Guaranteed Coverage
- Integrates on:
  - Wi-Fi Networks
  - Public LTE Networks
- Wi-Fi Hotspot
- Bluetooth
- FRS Radio Backup
- Analog Interoperability

FULLY CONNECTED, NO MATTER HOW

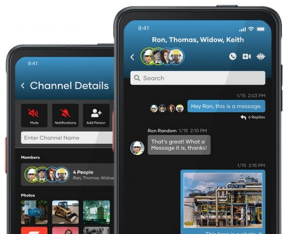

# Communicate Across the Platform

weavix™ builds an agile, efficient workforce anywhere in your airport. As a digital communication platform, weavix™ is designed to connect every worker from the front desk to the ground crews to the security team to office teams, no matter where they work.

## MOBILE APP

### Take weavix™ On-the-Go

Available on Android and IOS, the weavix™ mobile app lets you take the power of weavix™ with you wherever you go. We've made it convenient to collaborate with your frontline from anywhere using any mobile device.

## WEB CONSOLE

### Collaborate from your Office

weavix™ bridges the gap between the deskless and deskbound workforces for collaboration that pushes your enterprise farther. Using the web radio console or our integration with Microsoft Teams®, you can work alongside your frontline crews as you normally would, just from the comfort of your office.

# SAFETY AT THE FOREFRONT

## MAN DOWN BUTTON

# Help is One Push Away

What happens when the job goes from ordinary to life-threatening? Every wait™ smart radio has a dedicated man-down button to notify appropriate personnel of an emergency and the GPS location for immediate response. With weavix™, you can tailor your response plans to what works best for your workplace, the situation and your safety policies and procedures. Your employees can work confidently knowing their safety is the top priority.

# Targeted & Mass Alerts

## THE RIGHT MESSAGE TO THE RIGHT PEOPLE EVERY TIME

Trust weavix™ to deliver key safety and business-critical information right when your employees need it. Our three-tiered approach, along with the latest in geofencing location technology, allows weavix™ to target and send mass alerts across the airport, on the tarmac and even to your hangars.

### TIER 1

#### Informational

Send general, non-emergency information to keep your staff on the same page of what's happening in your workplace to keep airport operations running smoothly.

**E.g. Maintenance,  
Construction Closures**

### TIER 2

#### Warning

Notify employees of impending dangers that could affect them. Keep them on high alert and prepared to respond to keep themselves and travelers safe.

**E.g. Severe Weather  
Warning, Low Visibility**

### TIER 3

#### Danger

Alert your employees of immediate dangers happening in the workplace and the best way to respond and seek safety.

**E.g. Fire, Security Threats,  
Lockdowns**

THE FINAL APPROACH TO YOUR COMMUNICATIONS

# Smart Radios Enable Operational and Collaborative Excellence

Streamlining your airport workflows for all your passengers and deliveries involves prioritizing communication and connectivity with your whole staff. weavix™ is the link connecting your people, teams, operations and more so you can develop new ways to keep employees and travelers safe and satisfied.

YOUR STAFF AT YOUR FINGERTIPS

## Unrival Business Intelligence

weavix™ is your single source of truth for everything going on in your workplace. Instead of asking who's nearby, where they are and why, weavix™ gives you real-time visibility, location monitoring and activity insights to know for yourself. You can now acquire and measure previously unattainable frontline data to ensure your operations are best suited for your business needs.

- Discover & solve operational issues
- Analyze logistics, costs and benefits of key accommodations
- Manage, validate & improve schedules
- Increase oversight of aircrafts, employees and cargo

# 77%

## OF GLOBAL CEOs FOCUS & RELY ON OPERATIONAL EFFICIENCY TO BOOST REVENUE\*

\*How to Improve Operational Efficiency in 30 Steps. Any Connector

## Real-Time Visibility

See your workplace in action as it's actually happening. weavix™ gives you an accurate view of your whole staff so you can see how your workplace operates and identify improvement areas. By organizing your staff by teams, roles and responsibilities and analyzing their activities and movements throughout your space, weavix™ simplifies staff oversight.

- ✔ **Real-time employee information**
- ✔ **Verify time, location and activities**
- ✔ **Impartially analyze operations**

## Historic Analysis

Have the power to review and optimize your operations confidently. weavix™ provides historic data for you to further analyze and improve your staff's responses to activities in your workplace. This powerful analytics tool helps develop new emergency response procedures and performance workflows to streamline your operations. Review location, activity and time usage data to maximize revenue and efficiency within your workplace.

- ✔ **Increase revenue by reviewing operational trends**
- ✔ **Develop updated emergency response plan**
- ✔ **Measure ongoing performance with flight delays**
- ✔ **Perform accurate incident investigation**

10<sup>x</sup>

WI-FI IS 10 TIMES THE COST  
OF A PLTE NETWORK PER ACRE

## NETWORK FREEDOM

# Connect Your Airport Your Way

weavix™ gives you the freedom to choose the network option that best suits your needs. Our platform operates seamlessly across all major networking options to provide airports and aviation with a reliable and secure communication and productivity ecosystem. Whether you want to keep your existing network or you're ready for an upgrade, weavix™ is guaranteed to work for you.

## PRIVATE CELLULAR

weavix™ can design, deploy and manage your very own private cellular network. Our solution is designed to maximize uptime and keep your staff connected anywhere on your campus 24/7. Private cellular offers more benefits that other network options can't, such as:

- Advanced Security
- Lower Costs
- Higher User Density
- Customizable Coverage

### WI-FI

Use your current wi-fi network to extend collaboration and productivity to the whole airport.

### PUBLIC LTE

Power your walt™ Smart Radios with the same reliability you get from a public carrier.

### ANALOG

Using Radio over IP (RoIP), weavix™ provides digital collaboration abilities, even on a LMR system while you transition to digital.

A large commercial airplane is parked on a tarmac under a clear blue sky with some clouds. In the foreground, two ground crew members wearing high-visibility yellow vests and red pants are walking away from the camera. The airplane's nose and cockpit are visible, and a blue semi-transparent graphic overlay covers the left side of the image.

THIS IS THE INTERNET OF WORKERS™

# Revolutionizing the Future of Aviation

weavix™ is uniquely designed for the frontline workforce. For airlines, the frontline staff helps ensure your airport runs efficiently so passengers and their luggage can make it to their destination on time. When employees can freely communicate and work together effectively to solve operational issues, your airport gets recognized for its excellent service by travelers and businesses, leading to higher company morale and a growth in revenue.

weavix™ engages your employees and empowers them to do their job at peak performance. Putting communication and productivity into a single platform has contributed to seamless collaboration, improved safety and enhanced operations for airport security, baggage claim, maintenance and more in airports around the world. weavix™ supports frontline employees in aviation with innovative tools and capabilities built to overcome their unique challenges and create a greater traveling experience.
