UNLOCKING FRONTLINE & JOBSITE POTENTIAL

Transform with Communication and Data-Driven Excellence at Scale

Foremen, superintendents and project managers rely on dependable and secure communications with their construction crews and suppliers to stay on schedule and within budget for their projects. With limitless communication capabilities, built-in safety features and unprecedented job site visibility, weavix™ is inspiring a new way for construction crews to easily manage their sites and communication with their people.

Closing the Last Mile From the Jobsite to the Office

What is weavix™

weavix™, the Internet of Workers platform™, is the only communication and productivity platform made for the frontline workforce. We unlock hidden opportunities and true value of workers by bringing communication technology and efficiency data into one place. Giving crews the right tools with the right capabilities means their projects can stay on time and within budget, safety procedures improve and they can drive scalable, long-term success. weavix™ is a single source of truth for connecting and managing every job site.

- ✓ **Improve Communication**
- ✓ **Prioritize Safety**
- ✓ **Boost Jobsite Performance**

INNOVATION AT EVERY STEP OF THE PROJECT

Balancing Collaboration, Safety & Productivity at Every Jobsite

weavix™ allows corporations to realize the full potential of their workforce with the latest in digital communication technology and live data insights. Whether they're out on a job or between sites, weavix™ gives construction crews the solutions to keep projects running smoothly.

OVERSEE CONTRACTOR ACTIVITIES

weavix™ provides complete visibility for foremen and project managers to effectively manage a jobsite to ensure the project is completed on time and within budget.

SEND SAFETY INFORMATION

Keeping crews safe is the utmost priority for any project. Instantly send man-down alerts, GPS location and other safety information from any device.

DIRECT TEAMS & CREWS IN ONE PLATFORM

From preparing for deliveries to managing their teams, your crews can effectively communicate to keep your construction site productive during every project.

Communicate Across the Platform

weavix™ builds an agile, efficient workforce anywhere you do business. As a digital communication platform, weavix™ is designed to connect every worker from employee to contractor, no matter where they work.

MOBILE APP

Take weavix™ On-the-Go

Available on Android and IOS, the weavix™ mobile app lets you take the power of weavix™ with you wherever you go. We've made it convenient to collaborate with your frontline from anywhere using any mobile device.

WEB CONSOLE

Collaborate from your Office

weavix™ bridges the gap between the deskless and deskbound workforces for collaboration that pushes your enterprise farther. Using the web radio console, you can work alongside your frontline crews as you normally would, just from the comfort of your office.

MAN DOWN BUTTON

Help is One Push Away

What happens when the job goes from ordinary to life-threatening? Every walt™ smart radio has a dedicated man-down button to notify appropriate personnel of an emergency and the GPS location for immediate response. With weavix™, you can tailor your response plans to what works best for your workplace, the situation and your safety policies and procedures. Your employees can work confidently knowing their safety is the top priority.

Targeted & Mass Alerts

THE RIGHT MESSAGE TO THE RIGHT PEOPLE EVERY TIME

Trust weavix™ to deliver key safety and business-critical information right when your employees and crews need it. Our three-tiered approach and specialized geofencing technology let's you target and send mass alerts across your workplace or in specific areas for various reasons: informational, warning and danger.

TIER 1
Informational

Send general, non-emergency information to every worker all at once. Keep everyone on the same page of what's happening at any jobsite.

E.g. Delays, Scheduled Maintenance

TIER 2
Warning

Notify crew members of impending dangers that could affect them. Your site can stay on high alert and prepared to respond to keep workers safe.

E.g. Severe Weather Warnings

TIER 3
Danger

Alert your employees and contractors of immediate dangers happening in the workplace or jobsite and the best way to respond and seek safety.

E.g. Fire, Security Threats, Lockdowns

Smart Radios Enable Operational and Collaborative Excellence

Meeting deadlines and financial goals for a construction job involves prioritizing communication and connectivity with your whole team. weavix™ is the link connecting every aspect of your construction project to keep workers safe and manage their time and resources effectively.

52% OF REWORK IS CAUSED BY **POOR DATA AND MISCOMMUNICATION** BETWEEN STAKEHOLDERS COSTING **$31.3 BILLION** IN THE UNITED STATES ALONE*

YOUR JOBSITE AT YOUR FINGERTIPS

Unrivaled Business Intelligence

weavix™ is your single source of truth for everything going on in your workplace. Instead of asking who's nearby, where they are and why, weavix™ gives you real-time visibility, location monitoring and activity insights to know for yourself. You can now acquire and measure previously unattainable frontline data to ensure your operations are best suited for your business needs.

- **Manage & validate time onsite**
- **Discover & solve operational issues**
- **Analyze & measure resources**
- **Decrease risks & project completion time**

Real-Time Visibility

See your workplace or jobsites in action as it's actually happening. weavix™ gives you an accurate view of your whole staff so you can see how your workplace operates and identify improvement areas. By organizing your staff by teams, roles and responsibilities and analyzing their activities and movements throughout your space, weavix™ simplifies job site management.

- ⊘ **Real-time employee information**
- ⊘ **Verify time, location and activities**
- ⊘ **Impartially analyze operations**

Historic Analysis

Have the power to review and optimize your operations confidently. weavix™ provides historic data for you to further analyze and improve your response to emergencies and activities in your workplace. This powerful analytics tool helps develop new emergency response procedures and performance workflows to streamline your operations. Review location, activity and time usage data to maximize revenue and efficiency within your workplace.

- ⊘ **Increase revenue by reviewing operational trends**
- ⊘ **Develop updated emergency response plans**
- ⊘ **Measure ongoing performance against project deadlines and finances**

NETWORK FREEDOM

Connect Your Workplace Your Way

weavix™ gives you the freedom to choose the network option that best suits your needs. Our platform operates seamlessly across all major networking options to provide construction crews with a reliable and secure communication and productivity ecosystem. Whether you want to keep your existing network or you're ready for an upgrade, weavix™ is guaranteed to work for you.

PRIVATE CELLULAR

weavix™ can design, deploy and manage your very own private cellular network. Our solution is designed to maximize uptime and keep your staff connected anywhere on your campus 24/7. Private cellular offers more benefits that other network options can't, such as:

- Advanced Security
- Lower Costs
- Higher User Density
- Customizable Coverage

TEMPORARY DEPLOYMENTS

Get the same secure, reliable coverage at a temporary construction site. Our Cellular on Wheels (COW) maps out and deploys your private cellular network exactly where you need it and keep be up in running within four hours.

PUBLIC LTE

The carriers powering your personal devices can power our walt™ smart radio for every member of your construction crew.

Revolutionizing the Future of Construction

weavix™ is uniquely designed for the frontline workforce. If your construction crews didn't have the proper training, oversight and solutions available to complete their work, projects would go unfinished or not meet the standards your enterprise accepts. Contractors and workers are vital to any successful construction project and giving them the freedom to communicate leads to a **higher likelihood of hitting major milestones safely, on time and within budget.**

weavix™ engages your employees and empowers them to do their job at peak performance. Putting communication and productivity into a single platform has contributed to seamless collaboration, improved safety and enhanced operations for commercial construction sites, engineering facilities and more around the world. weavix™ supports frontline employees in **construction with innovative digital tools and capabilities built to overcome** their unique challenges and ensure every project is completed to perfection.
