Closing the Last Mile From the Frontline to the Office

What is weavix™

weavix™, the Internet of Workers platform, is the only communication and productivity platform made for the frontline workforce. We unlock the hidden opportunities and true value of workers by bringing collaboration technology and efficiency data into one place. Giving employees the right tools with the right capabilities means the food and beverage **industry can optimize their food production efforts, improve safety procedures and drive scalable, long-term success.** weavix™ is a single source of truth for connecting and managing all your employees.

- ✓ **Improve Team Communication**
- ✓ **Prioritize Employee Safety**
- ✓ **Boost Enterprise Productivity**

YOUR PEOPLE AT THE CENTER OF INNOVATION

Empowering Employees to Deliver High-Quality Products

weavix™ allows corporations to realize the full potential of their workforce with the latest in digital communication technology and live data insights. From the fields to the table, weavix™ supports every step of the food and beverage operating system to deliver excellent products to customers everywhere.

IMPROVE STAFF OVERSIGHT

weavix™ provides complete visibility for supervisors and shift leads to effectively manage their teams and continually monitor productivity.

SEND SAFETY INFORMATION

Keeping your staff safe is the utmost priority for the food industry. Instantly send SOS alerts, GPS location and other safety information from any device.

KEEP YOUR PLANT RUNNING SMOOTHLY

From direction to reporting a maintenance issue, your employees can effectively work together to resolve even the most complex problems in the workplace.

MORE THAN JUST A RADIO

Push-to-Three Collaboration

Giving your employees the freedom to communicate how they want so they can drive efficiency and produce the highest-quality foods.

weavix™ combines push-to-talk with some of today's most popular methods of communication at the push of a button. Push-to-talk, push-to-picture and push-to-video come together to give you the next generation of frontline communication: **Push-to-Three Collaboration.**

Communicate Across the Platform

weavix™ builds an agile, efficient workforce anywhere you do business. As a digital communication platform, weavix™ is designed to connect every worker from the production line worker to the to the office employee, no matter where they work.
MOBILE APP

Take weavix™ On-the-Go

Available on Android and IOS, the weavix™ mobile app lets you take the power of weavix™ with you wherever you go. We've made it convenient to collaborate with your frontline from anywhere using any mobile device.

WEB CONSOLE

Collaborate from your Office

weavix bridges the gap between the deskless and deskbound workforces for collaboration that pushes your enterprise farther. Using the weavix web radio console you can work alongside your frontline employees as you normally would, just from the comfort of your office.
MAN DOWN BUTTON

Help is One Push Away

What happens when the job goes from ordinary to life-threatening? Every walt™ smart radio has a dedicated man-down button to notify appropriate personnel of an emergency and the GPS location for immediate response. With weavix™, you can tailor your response plans to what works best for your workplace, the situation and your safety policies and procedures. Your employees can work confidently knowing their safety is the top priority.

Targeted & Mass Alerts

THE RIGHT MESSAGE TO THE RIGHT PEOPLE EVERY TIME

Trust weavix™ to deliver key safety and business-critical information right when your employees need it. With our three-tiered approach, weavix™ lets you target and send mass alerts across your workplace or in specific areas for various reasons: informational, warning and danger.

TIER 1
Informational

Send general, non-emergency information to every employee all at once. Keep everyone on the same page of what's happening in your plant.

E.g. Road Work, Building Closures

TIER 2
Warning

For impending dangers, target and notify the employees in the possible affected areas to be on alert and prepared to respond when needed.

E.g. Severe Weather Warning, Cancellations

TIER 3
Danger

Alert employees of immediate dangers happening in the plant and provide the safety protocols for effective response and evacuation to muster.

E.g. Fire, Security Threats, Lockdowns

Smart Radios Enable Operational and Collaborative Excellence

Focusing on making your workplace safe, collaborative and efficient means prioritizing communication and connectivity with your entire staff. weavix™ is the link between your people, systems and processes, giving you the opportunity to produce the high-quality foods your customers expect.

92% OF EMPLOYEES SAY HAVING TECHNOLOGY THAT HELPS THEM DO THEIR JOB EFFICIENTLY AFFECTS THEIR WORK SATISFACTION

*Workforce Productivity Statistics: Everything You Need to Know. Firstup.io.

YOUR STAFF AT YOUR FINGERTIPS

Unrivaled Business Intelligence

weavix™ is your single source of truth for everything going on in your workplace. Instead of asking who's nearby, where they are and why, weavix™ gives you real-time visibility, location monitoring and activity insights to know for yourself. You can now acquire and measure previously unattainable frontline data to ensure your operations are best suited for your business needs.

- Discover & solve operational issues
- Manage, validate & improve scheduling
- Increase revenue & production goals
- Analyze resources to help minimize waste

Real-Time Visibility

See your workplace in action as it's actually happening. weavix™ gives you an accurate view of your whole staff so you can see how your workplace operates and identify improvement areas. By organizing your staff by teams, roles and responsibilities and analyzing their activities and movements throughout your space, weavix™ simplifies staff oversight.

- ✓ **Real-time employee information**
- ✓ **Verify time, location and activities**
- ✓ **Impartially analyze operations**

Historic Analysis

Have the power to review and optimize your operations confidently. weavix™ provides historic data for you to further analyze and improve your responses to activities in your workplace. This powerful analytics tool helps develop new emergency response procedures and performance workflows to streamline your operations. Review location, activity and time usage data to maximize revenue and efficiency within your workplace.

- ✓ **Develop updated emergency response plans**
- ✓ **Perform accurate incident investigation**
- ✓ **Increase revenue by reviewing operational trends**
- ✓ **Measure ongoing performance against production outputs**

10^x | **WI-FI IS 10 TIMES THE COST OF A PLTE NETWORK PER ACRE**

NETWORK FREEDOM

Connect Your Workplace Your Way

weavix™ gives you the freedom to choose the network option that best suits your needs. Our platform operates seamlessly across all major networking options to provide food and beverage production facilities with a reliable and secure communication and productivity ecosystem. Whether you want to keep your existing network or you're ready for an upgrade, weavix™ is guaranteed to work for you.

PRIVATE CELLULAR

weavix™ can design, deploy and manage your very own private cellular network. Our solution is designed to maximize uptime and keep your staff connected anywhere on your campus 24/7. Private cellular offers more benefits that other network options can't, such as:

- **Advanced Security**
- **Lower Costs**
- **Higher User Density**
- **Customizable Coverage**

WI-FI

Use your existing WI-FI to give your employees more opportunities without a system overhaul.

PUBLIC LTE

The same carriers powering your personal phones can be used to power our walt™ smart radio for every staff member.

RADIO OVER IP (ROIP)

Using Radio over IP (RoIP), weavix™ provides digital collaboration abilities, even on a LMR system while you transition to digtial.

Revolutionizing the Future of Food & Beverage Production

weavix™ is uniquely designed for the frontline workforce. Your frontline employees are vital to safe, clean and efficient food and beverage production. When you give them the freedom to communicate with their teams and supervisors, you're helping ensure that your products are following strict health and safety standards and ensuring high-grade foods. Together, this leads to better outputs across the board and increased revenue for you.

weavix™ engages your employees and empowers them to do their job at peak performance. Putting communication and productivity into a single platform has contributed to seamless collaboration, improved safety and enhanced operations for food manufacturers, farmers and ranchers, food storage and more around the world. weavix™ supports frontline employees in food and beverage with innovative tools and capabilities built to overcome their unique challenges and guarantee safe, quality food for our communities.
